Provisions

Eligibility

You are eligible to participate on the first day you are employed with the University.

Enrollment

To enroll, please contact your human resources department to select a payroll deduction amount. You will then contact Vanguard to enroll online at vanguard.com/retirementplans. Your plan number is **099016**. To enroll by phone, call Vanguard at **800-523-1188**. Whether enrolling online or by phone, you will be asked the percentage of your pay you want to contribute and how you want to invest your money among the fund choices available.

If you enroll but do not make an investment election, your contributions will be invested in the Vanguard Target Retirement Fund with the target date closest to the year in which you will reach age 65.

Investments in Target Retirement Funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year (the target date) when an investor in the fund would retire and leave the workforce. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. The Income Fund has a fixed investment allocation and is designed for investors who are already retired. An investment in a Target Retirement Fund is not guaranteed at any time, including on or after the target date.

Beneficiaries

Be sure to name beneficiaries for your account. Properly designating beneficiaries ensures that, when you pass away, your hard-earned savings are distributed according to your wishes.

You will be prompted to name beneficiaries immediately following the online enrollment process.

To name beneficiaries later, or to update your beneficiary information, log in to your account at vanguard.com/retirementplans.

Employee contributions

You can contribute from 1% to 85% of your pay on a pre-tax, Roth 403(b) after-tax basis, or both.

The IRS also limits contributions. For current IRS limits, visit vanguard.com/contributionlimits.

If you contributed to a previous employer's plan this year, be aware that the annual IRS limit applies to the sum of your contributions to all employer plans for this year. You should monitor your contributions to ensure that your total contributions for this year do not exceed the annual IRS limit.

If you are age 50 or older, or will reach age 50 by year's end, *and* you contribute the maximum allowed, you may contribute an extra \$7,500. This additional amount is allowed as a catch-up contribution.

Provisions

University contributions

For every \$1 you contribute (up to 4% of your pay), Case Western Reserve University will contribute \$0.50 to your account.

Rollovers

If you have money in a former employer's qualified retirement plan, in most cases you can roll it over to your current employer plan account at Vanguard.

To initiate a rollover, log in to vanguard.com/retirementplans, select **Manage my money**, and then select **Roll over money into this plan**. If you need assistance, call Vanguard.

Vesting

Vesting refers to your right of ownership to the money in your account. You are 100% vested in all contributions and their earnings.
